DIVISION OF FINANCE

HISTORICAL DATA

The first banking corporations in Missouri received their charters by special acts of the territorial legislature and, after 1820, by acts of the Missouri General Assembly permitting the incorporation of particular banks. During the pre-Civil War period, the state's financial needs were also served by a number of incorporated private banks which lacked the legal authority then possessed by state-chartered banks--that of issuing bank notes which circulated as currency. Private or unincorporated banks continued to operate in Missouri as late as the 1920s and a number of today's banking corporations began operations as private banks.

In 1857, the General Assembly enacted a statute creating state administrative offices for the supervision of state-chartered banks. The Banking Commissioner and Assistant Banking Commissioner were given four-year terms and were appointed by the Governor. The Commissioner and Assistant Commissioner had custody of the plates and dies used for the printing of each bank's notes and one of the two state officials was required to countersign each bank note issued. Periodic bank examinations were required by the act. The first person to serve as Banking Commissioner was Claiborne F. Jackson. He was elected Governor in 1860, urged Missouri to secede from the Union and was replaced by an anti-secessionist Governor during the 1861 state convention at which Missouri decided to remain in the Union.

In 1863, an act with the stated purpose of creating a national currency and which permitted state banks to become national banks was passed by the United States Congress. While a national currency was undoubtedly needed, the main underlying purpose of the act was to better finance the Union's Civil War effort. National banks were permitted to issue bank notes up to an amount equal to ninety percent of the market value of U.S. Government bonds deposited with the U.S. Treasury. Thus, national banks were forced to buy bonds to finance the staggering cost of the Civil War. In 1865, Congress imposed a ten percent tax upon the payment after July 1, 1866, of any bank note other than national bank notes. As a result of this statute, most of the bank note issuing state-chartered Missouri banks became national banks and in 1866, the posts of Banking Commissioner and Assistant Banking Commissioner were eliminated.

Missouri's first general incorporation act for banks was adopted in 1877. No prior submission to or approval by any organ of the state was required by the act. The first comprehensive trust company statute was adopted in 1885. In 1895, an act was passed requiring annual bank examinations and the Secretary of State was given administrative powers to enforce compliance with the banking statutes.

In 1907, the General Assembly revised the banking statutes and created the State Banking Department headed by the Bank Commissioner. This action took effect in 1909.

In 1921, the State Banking Department became the Department of Finance and the title "Commissioner of Finance" was created. The 1945 Constitution, which took effect July 1, 1946, changed the name of the Department of Finance to the Division of Finance and placed it under the jurisdiction of the Department of Business and Administration. The State Banking Board was created in 1955 to handle appeals from certain decisions and orders of the Commissioner of Finance.

Under the Reorganization Act of 1974, the Department of Business and Administration was abolished and the Division of Finance was transferred to the new Department of Consumer Affairs, Regulation and Licensing which, by Constitutional amendment adopted on August 7, 1984, was renamed the Department of Economic Development.

Per Executive Order 06-04 the Division of Finance and the State Banking Board were transferred from the Department of Economic Development to the Department of Insurance, Financial Institutions and Professional Registration (formerly Department of Insurance). The transfer was effective August 28, 2006.

The director of the Division of Finance, by tradition referred to as the Commissioner of Finance, is appointed by the Governor with the advice and consent of the Senate. The "State Division of Finance" was created by Chapter 361 RSMo. Pursuant to that Chapter and Chapter 362 the Division is required to examine all state-chartered banks and trust companies on an eighteen-month cycle. The purpose of the examination is to determine each institution's solvency, safety of operations and adherence to applicable state laws and regulations. The overall goal of the Division is to ensure a safe and sound banking system for Missouri.

Missouri was originally a unit bank state with restrictions on the location and number of branches. The restrictions were gradually removed during the 1970s and 1980s. Finally, a federal court ruled that national banks in Missouri were no longer subject to Missouri's branching limits. Immediately, state banks were given parity, first by emergency regulation and then by law, and all restrictions as to location and number were eliminated.

Protection of depositors is the fundamental concern which motivates the actions of the Division of Finance. Missouri laws contain numerous references to this strong public policy. It underlies the enforcement and removal actions authorized in Section 361.260, et seq. It is found in the law governing priorities in liquidation (Section 361.190) and it is reflected in the statutes prohibiting a bank from receiving deposits when it is either insolvent or in failing circumstances (Section 362.345). Accordingly, it is the policy of the Division to make every effort to assure that no losses are suffered by state bank depositors.

The Division of Finance is self-supporting through statutory assessments and fees based on the total assets and the relative costs to examine the institutions under its supervision. Prior to August 28, 1991, all such receipts were deposited into the General Revenue Fund. Effective that date, House Bill 516 passed by the 86th General Assembly, created a special fund, known as the Division of Finance Fund, which is devoted solely to the payment of expenditures incurred by the Division for the regulation of banks, trust companies and other corporations subject to its jurisdiction.

Boards and Commissions

The State Banking Board, a judicial body, was created in 1955 to handle appeals from certain decisions and orders of the Commissioner of Finance. The bipartisan board is comprised of five members; two must be non-bankers, one must be a lawyer and two must be experienced bankers. The Savings and Loan Commission, created in 1957, serves a similar function for state-chartered thrift associations. This bipartisan commission is also comprised of five members, one of whom must be a lawyer. The Residential Mortgage Board was created December 1996 to hear appeals of decisions of the Commissioner of Finance relating to mortgage brokers. This bipartisan board is comprised of five members; one must be a lawyer and three must be experienced in mortgage brokering.

DIVISION OF FINANCE

MISSOURI BANKING - 2006 TO 2008

BANK AND TRUST EXAMINATIONS

The Division of Finance regulates state-chartered banks and trust companies. The Division is required by Section 361.160 RSMo to perform examinations of all such state-chartered institutions. This law, as amended in 1996, extended the examination cycle from once each year to at least once in each eighteen-month period for institutions rated satisfactory. Institutions rated less than satisfactory are examined at least once each twelve months. All banks were examined within these frequency requirements in 2006 and 2007. This was accomplished with the cooperation of the Federal Deposit Insurance Corporation and the Federal Reserve Banks in alternating examination agreements.

The objectives of the Division of Finance in the examination process are to:

- Promote safe and sound banking and fiduciary practices in state-chartered institutions, thereby safeguarding depositors' funds and maintaining public confidence in Missouri state-chartered institutions.
- Determine the financial condition and operating risks of each institution. This includes reviews of the institution's capital adequacy, asset quality, management practices, earnings performance, liquidity position, and sensitivity to interest rate and market risk changes. Adequacy of internal management reports, computer systems, and fiduciary activities is also evaluated.
- Monitor compliance with State and Federal banking laws and regulations.
- Verify the accuracy of financial information provided to the public.

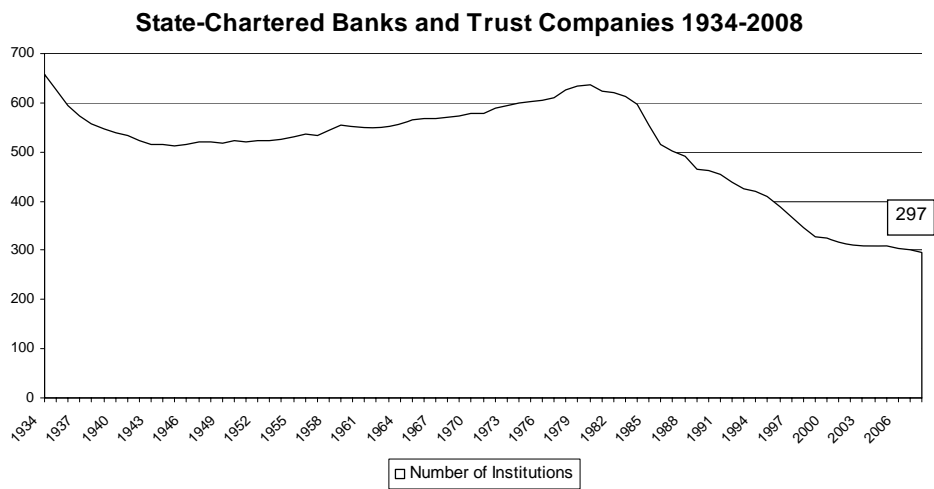

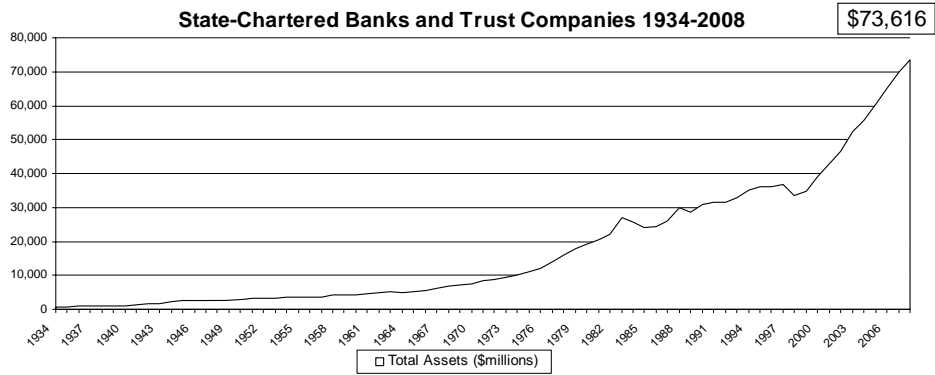

These objectives are met through the Division's supervisory process that stresses effective and efficient regulation, together with minimizing state government's burden on financial institutions. On-site examinations are conducted on commercial bank activities, trust operations, and computer systems to evaluate the institution's risk profile and management practices. In addition, the Division regularly conducts off-site statistical and financial reviews of each institution in order to identify emerging signs of elevated risk. Where abnormal risk concerns are noted, Division examiners visit the bank to develop a proactive resolution of developing problems. Banks and trust companies with significant weaknesses receive close regulatory attention including the possibility of enforcement action designed to address and correct problem areas. The Division may also take action to merge, close or otherwise address institutions with severe financial difficulties.

In 2004, the Division began evaluating each institution's program to comply with Federal anti-terrorism financing and money laundering laws.

The Division continues its efforts to reduce regulatory burden while performing examination activities. This has been achieved through efficiencies gained in risk focusing each examination and leveraging computer technology to enhance bank examiners' effectiveness.

MISSOURI BANKS

DIVISION OF FINANCE

SAVINGS AND LOAN ASSOCIATIONS

Effective July 7, 1994, the responsibility of administering the laws regulating the savings and loan industry was transferred to the Division of Finance.

Chapter 369 RSMo requires the Division of Finance to exercise general supervision over the savings and loan industry, including the enforcement and execution of laws. Supervision includes periodic examinations to determine safety of operations and compliance with applicable laws and regulations.

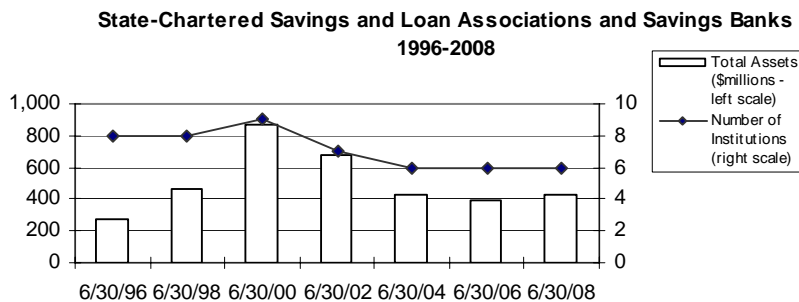

**Comparative Statement of Condition
State-Chartered Savings and Loan Associations

Summary

Between June 30, 2006 and June 30, 2008, the number of state-chartered savings and loan associations and savings banks was unchanged.

As of June 30, 2008 six state-chartered savings and loan associations existed with assets totaling \$432 million.

DIVISION OF FINANCE

CONSUMER CREDIT

The Division of Finance is charged with the responsibility of executing laws relating to consumer transactions under several statutes.

Sections 367.100 – 367.215 require licensing of consumer credit lenders, more commonly known as small loan companies. The supervision involves periodic examination for the purpose of assuring compliance with various consumer laws concerning rates, credit related insurance, disclosures, and refunding. The Division collects and consolidates reports of these companies' financial activities.

Sections 367.500 – 367.533 comprise the Title Loan Law which sets standards for companies exclusively engaged in making loans secured by titled personal property.

Chapter 365 is the Motor Vehicle Time Sales Act, a comprehensive licensing and disclosure law regulating time sales of motor vehicles. The supervision includes periodic examination to assure compliance with various consumer provisions.

Sections 364.010 – 364.070, the Missouri Financing Institution Licensing Act, regulates persons and entities engaged in the business of purchasing retail time contracts on merchandise other than motor vehicles. The supervision includes periodic examination for the purpose of assuring compliance with various consumer provisions, especially those found in the substantive law relative to Sections 364.010 – 364.070, the Retail Credit Sales Act (Sections 408.250 through 408.370).

The Missouri Second Mortgage Loan Act, Sections 408.231 through 408.241, treats loans secured by junior liens on residential real estate. The Division of Finance examines these loans for compliance with all of the consumer provisions.

The Missouri Premium Finance Law, found within Chapter 364, is a comprehensive licensing, disclosure, and rate act for institutions which finance insurance premiums. The Division of Finance maintains a supervisory authority over licensees under this act to assure compliance with provisions designed to protect the consumer.

Sections 408.500 – 408.506 require licensing and regulation of companies engaged exclusively in the business of making unsecured loans of \$500 or less, known as payday loans. The Division of Finance examines such lenders to assure compliance with the consumer protection provisions.

Section 408.510 created "consumer installment lenders", i.e. lenders who make loans of any size but in all cases requiring a minimum of 4 installments which distinguishes them from 'payday lenders'.

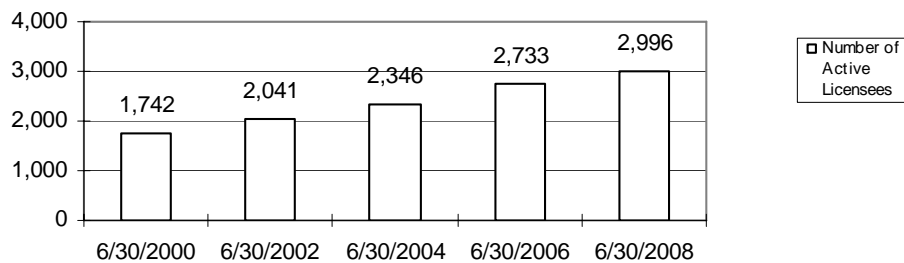

Sections 407.635 – 407.644 provide for the registration of credit services organizations, commonly known as "credit repair companies". The Division of Finance registers such companies and, under certain circumstances, requires performance bonds.

The Sale of Checks Law, found in Chapter 361, provides for licensing of companies which issue money orders and travelers checks or which transmit funds electronically. The purpose of the law is to assure that money orders issued in the State of Missouri are paid according to their terms. The Division licenses companies to engage in such business upon filing an application, certified audit, and bond or letter of credit to assure performance.

The Missouri Anti-Redlining Law, Sections 408.570 through 408.600, prohibits discrimination in making of loans secured by residential real estate because of location of a specific property or race, age, sex, marital status, religion, or national origin of the borrower. The Division enforces the anti-redlining laws relative to all state-chartered banks, savings and loan associations, and licensed financial institutions plus mortgage bankers. All such institutions are obliged to file reports periodically and those state-chartered or licensed institutions located within cities or counties with populations exceeding 250,000 persons are subject to examination by the Division as well.

The Debt Adjusters Law, Sections 425.010 through 425.040, as of August 13, 2007 requires bonding for persons who, for a consideration, act as intermediaries to alter the terms of debts. The performance bond must be posted with the Director of the Division of Finance who also has complaint resolution responsibility under the act.

Consumer Credit Companies 2000-2008

DIVISION OF FINANCE

RESIDENTIAL MORTGAGE BROKERS

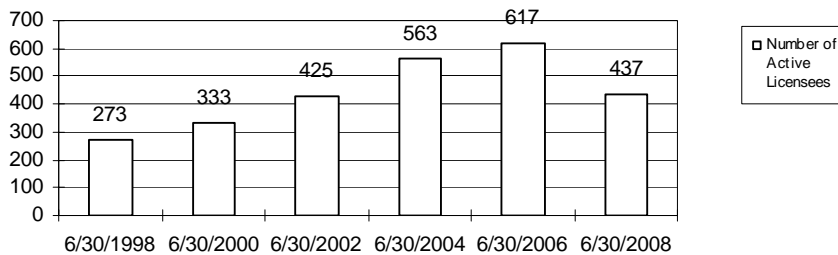

Sections 443.800 – 443.893 RSMo, as amended, assigns to the Division of Finance the responsibility of enforcing the laws that regulate residential mortgage brokers. Supervision includes licensing and investigative powers.

A license is required to broker residential real estate mortgages unless the individual or company qualifies for an exemption. Before issuing a license, the Division of Finance is required to investigate each applicant for character, general fitness, experience and financial responsibility.

As of June 30, 2008, 437 mortgage brokers were licensed, and 2,782 mortgage companies were registered as “exempt” from licensing. “Exempt companies” are licensed with an agency of the federal government and are not required to be licensed under state law.

The decline in the number of licensed mortgage brokers is primarily attributed to the downturn in the housing economy and the tightening of credit standards by the lenders.

Residential Mortgage Brokers 1998-2008

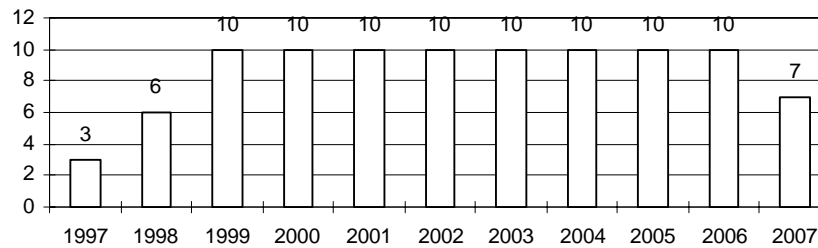

DIVISION OF FINANCE

CERTIFIED CAPITAL COMPANIES

The Department of Economic Development certifies companies as Missouri Certified Capital Companies (CAPCOs) according to Chapter 135 RSMo. These companies are organized to make venture capital investments in Missouri businesses and can earn state tax credits. The Division of Finance is required by Section 135.520 RSMo to conduct an annual review of each CAPCO to determine the company is abiding by the requirements for certification, that investments are qualified, and that those investments conform to the law. Costs of performing the reviews are assessed to the CAPCO. The Division's annual review is provided to the Director of the Department of Economic Development.

Certified Capital Company Reviews

LEGISLATION

The 2007 – 2008 biennium resulted in numerous legislative enactments affecting financial services in the State of Missouri. Below are the bills that have a direct impact on the Division of Finance.

In 2007 legislative enactments included the following:

HB 329 – Debt adjusting for profit is authorized subject to the requirement to post a bond with the Division of Finance. As this activity develops, further state attention may be warranted as well as for related debt repair services.

HB 741 – Revised the “linked deposits” law, most significantly by redefining “eligible locally owned business.” A portion of public funds deposited in Missouri banks are “linked” to specific lending relationships to support favorable rates for targeted business and employment development.

SB 22 (cf SB 497) – Made changes in the rules for investing county deposits including shifting the bidding time and eliminating a requirement that the funds be divided into portions.

SB 66 – Revised scores of sections in the insurance code. Of interest to banks and to the Division of Finance are revisions of the title insurance act, Sections 381.011 - 381.412. A settlement agent must require good funds (cash, certified funds or a cashier's check). However, the term “settlement agent” has limited application. A settlement agent is defined as anyone who holds money or documents for a party to a transaction involving Missouri real estate unless that “person” is a financial institution, i.e., a bank, S&L, credit union, trust company, commercial or consumer finance company, insurance company, small business investment corporation, REIT, mortgage banker, realtor or lawyer. In addition, the good funds requirement may be waived if the check is drawn on an escrow account of a real estate broker, a title insurer, any government entity or an account BY (sic) a financial institution.

SB 82 – Revised a number of sections involving motor vehicle titles and dealers. Section 301.640 sets rules for releasing a satisfied lien on a vehicle title; the release must be made within 5 days rather than the prior maximum of 10 and the potential penalty for late release is now \$2,500 rather than the former maximum of \$500.

SB 591 – Clarified the limits on fields of membership for Missouri state-chartered credit unions. The new law reflects a compromise between the banking and credit union interests to preserve the traditional roles of banks and of credit unions.

In 2008 legislative enactments included the following:

HB 2188 – Defined mortgage fraud and created civil and criminal penalties. Regulatory procedures were enhanced to improve oversight and discipline for licensed real estate sales persons, title agents, appraisers and mortgage brokers.

SB 788 – Enabling legislation for the re-organization of the Department of Insurance, Financial Institutions and Professional Registration (DIFP) consistent with Executive Order 06-04. The Division of Finance was transferred via Type III transfer from the Department of Economic Development to the newly re-constituted DIFP.

SB 951 – Under the act, in a state of emergency, the Governor shall authorize the Director of Finance and the Director of Credit Unions to suspend laws and rules applicable to the divisions if reasonable and necessary to safeguard the soundness of financial institutions and coordinate emergency response with financial institutions and emergency responders.

Prior to this bill, banks and trust companies could operate under emergency bylaws in the case of a nuclear attack. This act allows banks and trust companies to take these measures when the legislature or governor declares a state of emergency. On such occasion, the board of directors or president of the financial institution shall notify the director of finance of the implementation of emergency bylaws and the status of its emergency response operations.

SB 999 – Prior to this bill, only a financial institution whose name is deceptively used could bring a civil action to obtain injunctive relief and damages. This act allows the Attorney General to bring an action for unlawful merchandising practices when such a deceptive use occurs.

SB 1009 – Under this act, the certified funds requirement for a settlement agent closing a transaction shall only apply when a settlement agent accepts funds greater than \$2,500 in a real estate transaction.

SB 1168 – Revised refund formula related to credit insurance to address uncertainty regarding computation methodology. The act also provides that in determining the number of months for which a premium is earned, the first month's premium may be considered as earned on the first day of coverage and for all successive month's premiums, on the coverage anniversary date in each successive month.

SB 1235 – Current law provides that a trustee may invest and reinvest trust assets in securities or obligations of any state or its political subdivisions, including securities that are underwritten by the trustee or an affiliate thereof. This act provides that in addition to the authority in current law, the trustee may invest trust assets in U.S. government obligations or other interests in any open-end or closed-end management investment company or investment trust registered under federal law, including but not limited to U.S. Government obligations or repurchase agreements collateralized by such obligations, notwithstanding that the governing instrument or order requires or permits investment in U.S. government obligations, and provided that the portfolio of the investment company or investment trust is limited to U.S. government obligations, and to repurchase agreements fully collateralized by such obligations, and provided that the investment company or trust takes delivery of such collateral.

The act also provides that a bank, trust company, or affiliate, when acting as an investment advisor, custodian, or otherwise in a fiduciary capacity with respect to the investment of assets, may invest and reinvest such assets subject to the standards contained in this act, and subject to the Missouri Prudent Investor Act within Chapter 469, RSMo. Also, such entities may invest trust assets in shares or interests in a partnership or limited company or other entity that operates as a privately-offered investment fund.

**Abstracts of Reports of Condition
Filed by State-Chartered Banks
and Trust Companies**

SUMMARY

As of June 30, 2008, 297 state-chartered banks and trust companies, including 7 nondeposit trust companies, held assets of \$73.6 billion.

Since June 30, 2006, six new bank charters have been granted and 215 branches were approved. Eleven state-chartered banks merged with out-of-state institutions and two banks merged into other Missouri state banks. One state-chartered nondeposit trust company merged into an out-of-state institution and one nondeposit trust company was dissolved. There was one bank failure.

During the biennial period the number of state-chartered banks and trust companies declined by 3.3 percent from 307 to 297, due mostly to mergers and consolidations. Excluding automated teller machines (ATMs), Missouri state-chartered banks had 1,580 offices as of June 30, 2008.

as of June 30, 2008**

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of June 30, 2008, and a comparison with the statements filed one year earlier.

Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies decreased by five from 302 to 297. Five banks and one nondeposit trust company merged into out-of-state institutions. One nondeposit trust charter was dissolved. There was one bank failure when Hume Bank was closed by the Commissioner on March 7, 2008. There were three new bank charters granted, two of which were issued when national banks converted to a state charter.

Assets in state-chartered banks totaled \$73.6 billion on June 30, 2008, an increase of 9.6 percent from one year earlier. Deposits were \$58.5 billion, up 8.0 percent. Total loans were \$54.1 billion on June 30, 2008, up 9.4 percent.

The equity capital ratio decreased to 10.45 percent. Primary capital, which includes the allowance for loan and lease losses, was also down, to 11.46 percent. The tangible equity capital ratio decreased to 8.94 percent. Despite these changes, capital remains strong in Missouri banks.

Net income in state banks was down 46.2 percent from June 2007. Return on assets among state-chartered banks was 0.53 percent compared to 1.07 percent in June 2007. The income decline is influenced by a small number of banks with ten banks accounting for a substantial portion of the earnings decline. The return on assets for the remaining 280 banks was 1.02 percent.

as of December 31, 2007**

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of December 31, 2007, and a comparison with the statements filed one year earlier.

Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies decreased by four to 300. Five banks merged into out-of-state banks. There was one new bank charter granted.

Assets in state-chartered banks totaled \$69.8 billion on December 31, 2007, an increase of 7.2 percent from one year earlier. Deposits were \$56.2 billion, up 6.8 percent.

Total loans were \$51.7 billion on December 31, 2007, up 8.2 percent.

The equity capital ratio remains strong and increased to 10.75 percent. Primary capital, which includes the allowance for loan and lease losses, was also up, to 11.66 percent. The tangible equity capital ratio was up to 9.32 percent.

Net income in state banks was down 13.1 percent for 2007. Return on assets among state-chartered banks was 0.95 percent, compared to 1.16 percent for 2006. The reduced net income is a result of declining asset quality. This is evidenced by an increased past due ratio, and a sharp increase in net loan losses combined with the corresponding provision expense.
